

Business Retention & Expansion

The Chamber's Business Retention & Expansion program helps local businesses that employ our residents and strengthen Springfield's regional economy. We provide companies with a single point of entry to a variety of business assistance resources.

How It Works

You'll meet with a representative from the Chamber's economic development team to identify the challenges and opportunities your business is facing. During this confidential meeting, we will ask you questions on a variety of topics including industry trends, workforce, legislative and government affairs, community services and infrastructure, current operations, and future planning.

How We Help

Based on that initial conversation, we will coordinate with the organizations and agencies that can help resolve your issues and open doors to programs such as:

- Economic development incentives
- Workforce training and financial assistance
- Utilities, energy audits, and infrastructure
- Interacting with local, state, and federal government
- Import-export assistance and international business development
- Financing
- Expansion project assistance
- Business and management consulting
- Networking and business development
- Finding grant opportunities
- Intern programs

**We work on your behalf,
so you can focus on
running your business.**

Why It's Easy

- No hassle to participate – we do the legwork
- Access the combined resources of many organizations working together
- Take advantage of business support programs that help you improve your bottom line, grow, and create jobs
- No cost to you
- Find solutions to your business challenges
